PERSONAL PROFILE

I am Sareen Ahamed, a student of Information and Communication Technology specializing in Software Technology, seeking real-world experience in software development. I am passionate about web and mobile application development and accessible software. With experience in university projects, I am skilled in both independent and team environments, focusing on writing and debugging programs. My education has honed my communication skills, allowing me to deliver quality results.

Analytical Thinking, Communication, Time Management, Teamwork, Problem Solving

COURSEWORK

GRADUATE

Object-Oriented Programming

Data Structures and Algorithms

Database Management Systems

Operating Systems

Web Application Development

PROJECTS

WEATHERWITHSAREEN | WEATHER APP

- Developed a responsive weather application using **JSX**, **CSS**, and the **OpenWeather API**.
- Integrated real-time data to display current weather conditions, including temperature, humidity, and forecasts, based on user location or search queries.
- Applied **React JS** to manage state and handle dynamic content, enhancing performance and user experience.
- Leveraged **CSS** for a clean, modern UI, and ensured cross-device compatibility.

SAREEN AHAMED | PERSONAL PORTFOLIO

- Developed a highly-interactive personal portfolio web app using **JSX**, **Tailwind CSS**, **React Router**, **React Scroll**, and **Framer Motion**, showcasing skills and projects in a clean, responsive design.
- Implemented smooth scroll navigation and route transitions, enhancing user experience and accessibility across devices.
- Leveraged **Tailwind CSS** to ensure rapid, utility-first styling and consistent responsiveness.
- Employed **Framer Motion** for refined animations, delivering a visually engaging and modern user interface.
